Item # BRANDPAC™ BPSW-5000, High-Speed Bottom Overlap Multipacking Systems

High-Speed Bottom Overlap Multipacking Systems

BRANDPAC™ BPSW Series high-speed, bottom overlap multipacking systems specifically designed for the Roofing Shingle Industry, or other wide product applications.

Shrink film is quickly becoming the preferred alternative to paperboard for the shingle industry. At fraction of the cost of paperboard, printed film provides an attractive forum for your retail marketing message. Shrink is also more favorable than paperboard in protecting the product when stored outside. Shrink provides better moisture control giving the product longer shelf life.

The BPSW operates on demand, without a seal bar, to produce up to 45 shrink wrapped bundles per minute (depending upon application).

APPLICATIONS

Ceiling tiles

Corrugated board

Roofing Shingles
