

Alfa Wassermann ACE Chemistry Analyzer System

Manufacturer: Alfa Wassermann

SKU#: 8018-30-0001

- On-board refrigeration system
- Capable of single or panel testing procedures
- Offers a wide range of test menus
- Equipped with Sample Tube Entry Port (STEP) module
- Hassle-free reagent tracking and management
- Automated repeat and dilution of specimens

Product Description

The Alfa ACE® Clinical Chemistry System delivers quality performance. As a result of exceptional research efforts, this powerful bench-top analyzer can skilfully answer the dynamic needs of a physician's office-laboratory. ACE® systems are packed with various time, labour and maintenance saving features that ensure productivity in any laboratory set-up. The ACE® Chemistry System integrates a number of features including a large on-board capacity and the capability to automatically read sample specifications from a unique dot code label. Each unit is also pre-loaded with definitions for various manufacturer-validated tests. Users can enhance the flexibility of this versatile model by manually adding data parameters to the instrument. The ACE® system produces precise numeric test values in every use, even for outputs that fall beyond the normal ranges. Innovative features and accurate results ensure that ACE® models contribute to the profitability of office-laboratories. Common applications of the Alfa Wassermann ACE Chemistry System include routine chemistry assays, enzyme assays, electrolyte assays, liquid assays, thyroid assays, and therapeutic drug assays. Call us today to learn more about the Alfa ACE® Clinical Chemistry System!
