

### Requirements and Solutions

Full crate? The Innocheck FCI makes sure that your customers are not left empty handed! The system checks the completeness of crates by capturing images of the crates from above. Incomplete crates are then channeled out.

### Key Features

- Suitable for a wide range of packing positions and partition layouts
- Maintenance-free LED lighting
- Easy expansion to include final inspection of logos to check if the crates match the product
- Hygienic design

### Standard Equipment

- Hygienically designed stainless steel housing
- LED lighting
- Color camera
- Innovative KHS image processing software

### Advantages

- High reliability of the measuring system
- Camera technology not influenced by closure colors
- Reduction in customer complaints

#### Possible combinations

- Innocheck rejection systems

#### Service

- Worldwide service
- Holistic consulting and planning
- ReDiS remote maintenance
- Fast supply of spare parts

#### Technical Data

##### Maximum machine capacity

6,000 crates per hour

##### Protection class

IP 65
