THE REFRIGERATED FROZEN BEVERAGE STATION THAT DOES IT ALL

BlendPoint™ is an advanced, all-inclusive beverage station that dispenses, blends and serves hundred of frozen beverage combinations. Expand your menu and increase your profits with minimal training and setup.

ALL-INCLUSIVE CREW-SERVE REFRIGERATED FROZEN BEVERAGE STATION

BlendPoint is created jointly with leading beverage dispensing provider Lancer, and offers a comprehensive solution for dispensing, blending, and serving premium frozen beverages. Lancer's superior refrigeration cabinet allows for high quality, better tasting product that doesn't need to be shelf stable; while the commercial grade Blendtec blender creates the smoothest, most consistent blends in seconds.

INTUITIVE AND PROGRAMMABLE

A simple touchscreen interface makes operating BlendPoint easy, even for novice operators. Program your blends for specific amounts of BIB product, ice, and water to create countless beverage options—including smoothies, milkshakes, and frozen coffee drinks.

ERGONOMICS-FOCUSED FOR EFFICIENCY

Operators can add finishing touches without leaving the station. A whipped cream draw, syrup toppings tray, cup holder, and straw and lid slot are all within arm's reach. There's even a built-in Rapid Rinse™ Station that cleans used jars in mere seconds, queuing you up for the next order.

FEATURES:

- Intuitive, programmable touchscreen
- 3.8 peak horsepower Blendtec blender
- 8 refrigerated bag-in-box (BIB) storage locations
- 25 lb. ice hopper with low ice sensor
