

Series 2635-PU

Premium Frac Water Supply Hose - Polyurethane

This hose is designed for rapid deployment in supplying frac water to the drilling industry. The **unique one piece, through-the-weave construction**, allows for a very durable, lightweight, high pressure, and low friction loss, supply line hose. The premium **Polyurethane** compound is compatible with brine water, sand, and oil based fuels, while maintaining the **excellent** resistance to UV and abrasion.

Compound:	100 % Polyurethane (PU) - Gray Color
Reinforcement:	High tensile polyester
Temperature:	-58°F to +167°F
Safety Factor:	3 : 1
Elongation:	Max 1% @ 150 PSI
Origin:	Germany
Branding:	Eschbach Made In Germany

Part #	I.D.		Wall Thickness	Weight (lbs/ft)	W.P. (PSIG)	Std. Length
