

FlexCrimp CC150 Hose Crimper

The CC150 is a cost-effective alternative to fully automatic crimping without any sacrifice in range or capacity. Featuring a 120 mm (4.72 in) throat opening, it has the ability to crimp 2 inch 4 wire and 1-1/2 inch 6 wire hose.

Optional Die Storage Rack keeps dies organized and readily available.

Magnetic die change tool (included) makes changing dies a quick "no mess" operation.

Features

- Hose capacity up to 1-1/2 inch 6 wire hose and 2 inch 4 wire hose
- Complete range of dies and accessories available
- Master die inside diameter: 84 mm
- Maximum die opening: die closed diameter + 38 mm
- Direct reading metric micrometer
- Automatic shut off assures repeatability
- 5 HP hydraulic pump (8 gallon)
- 230 Volt 3 phase pump standard
- 440 Volt 3 phase pump optional
- ISO 46 hydraulic oil reservoir to keep components cool during operation
- Size: L 29" X W 20" X H 28"

your single-source supplier

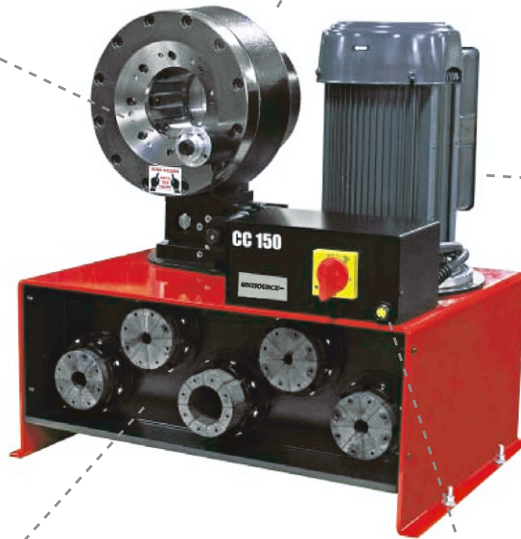

The features found on CC150 and the accessories included make it the best value of any crimper in its class

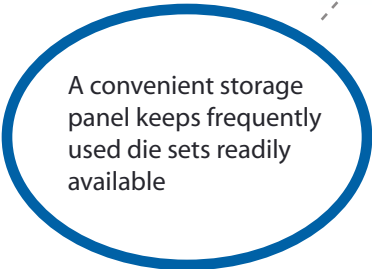

Direct reading digital micrometer makes crimping to exact manufacturers specifications an easy set up.

Built in Coupling Stop speeds repetitive crimps.

The 5HP motor delivers the power needed to get the job done quickly.

A convenient storage panel keeps frequently used die sets readily available

A foot switch permits dies to be "jogged" into position and keeps both hands free.
