

# 360

## PHOSPHATE-FREE CLEANER

### Description

Chesterton® 360 Phosphate-Free Cleaner is a powerful industrial strength hard surface cleaner designed for use in environmentally sensitive areas.

Chesterton 360 Phosphate-Free Cleaner is concentrated. It will penetrate, lift, emulsify and disperse dirt, oil, grease, mildew and other types of soils from a variety of hard surfaces.

It is a versatile product that has hundreds of applications in the industrial and marine markets. Typical uses include; cleaning of industrial and institutional floors, walls, lavatories, desks, machines, vinyl tile, concrete, signs, office equipment, machinery, parts in process, food processing equipment, hoods, machine shop tools, floor gutters, marine decks, hulls and bilges.

Usage of 360 Phosphate-Free Cleaner requires no special equipment; just spray on and rinse off mildew, rot and fungi from most hard surfaces.\*

Chesterton 360 Phosphate-Free Cleaner is authorized by the United States Department of Agriculture (USDA). It can be used to clean food processing equipment in all federally inspected meat and poultry plants.

### Composition

Chesterton 360 Phosphate-Free Cleaner is a high alkaline cleaner containing only non-phosphate builders and surfactants. Because it does not contain these bio-stimulants, it will not contribute to eutrophication of the waterways.

Chesterton 360 Phosphate-Free Cleaner works especially well in those environments soiled with animal or vegetable fats. Through a process known as saponification, 360 neutralizes the free fatty acids found in such soils and forms a water soluble soap like product. This residue can be easily rinsed from surfaces or skimmed from water baths.

### Typical Physical Properties

Form	Liquid
Appearance	Transparent, Blue-Green
pH (concentrated)	13.1
Flashpoint	None
Solubility in Water	Complete
Density	1,1 kg/l
Specific Gravity	1.1
Freeze Thaw Stability	Passes 6 cycles

### pH vs. Dilution

Chesterton 360 Phosphate-Free Cleaner is highly concentrated. It can be diluted as much or as little as needed to suit all industrial cleaning needs in an economical manner.

\*See directions for caution statement.

### Features

- Phosphate-Free
- Biodegradable
- Nonflammable
- Solvent Free
- Water Soluble
- Environmentally Safe
- Highly Concentrated
- Saponifies Animal and Vegetable Fats
- NSF A1, A4 - Registration number 133961

### Recommended Minimum Concentrations (In Water)

General Cleaning	7%
Light Cleaning	2%
Heavy Cleaning	15%
Crayon & Felt Tip Marker	concentrated
Painted Surfaces	7%
Acrylic Floor Finishes	10%
Built Up Acrylic Floor Finishes	15%

**Directions**

Dilute to desired strength. Apply with mop, brush, sponge, cloth or spray. Allow a minute for deep penetration. If necessary, use stiff brush or cloth to loosen tough dirt. Rinse with water. Reapply as needed. When used to clean aluminum, rinse quickly to avoid staining. On plastics and paints, test a small area for compatibility before using.

**Safety**

Before using product, review the Material Safety Data Sheet (MSDS) or the appropriate safety sheet for your area.
