## 75 mm JUICE CUPS

### THE WINPAK SYSTEM

Winpak is a recognized leader in creating packaging solutions for the food, dairy, beverage, pharmaceutical, and industrial markets. Winpak's Juice cups are part of a complete packaging system designed for juice and beverage applications. In combination with these containers, Winpak can supply a variety of die-cut foil lidding materials as well as low output rotary and high output in-line filling machines to meet a wide variety of packaging applications. We can also custom design a package to meet your specific requirements. Winpak is your **single source** for total packaging solutions.

### APPLICATIONS

Applications include: juices, water, and various other beverages.

### HIGH IMPACT POLYSTYRENE

Winpak manufactures rigid plastic containers in a variety of materials. Polystyrene containers are a low cost alternative to other plastic materials. Polystyrene provides excellent top load strength and good stiffness. Polystyrene has traditionally been the most common plastic material for food and dairy packaging applications because of its good balance of properties and processability.

### Various Rigid Packaging and Flexible Lidding Products Offered by Winpak
