LongCap

Aluminum Roll-On Closure System

*Up to 5 bar
gas tight*

LongCap delights bottlers and wine lovers alike, as this alternative wine closure prevents tainting and retains your wine's flavor and aroma. Opening and resealing are easy, without tools. LongCap is also advantageous in the production process. The capping is reduced to just one step – in contrast to other types of closures. LongCap also contributes to environmental and resource conservation. Taint prevention means reduced scrap and valuable energy savings with no unnecessary product disposal. And of course, all aluminum closures are recyclable. LongCap leaves absolutely nothing to be desired, which is exactly what you would expect from a 'made in Germany' aluminum screw cap.

Protects Product Integrity & Offers Consumer Convenience

- Visible and audible tamper evidence, safeguarding product authenticity
- Preserves flavor, aroma and freshness
- Easy to open and reseal
- No tools required

Product Specification

- Aluminum screw cap 30 mm diameter (30x50 / 30x55 / 30x60 mm)
- For BVS / BVP 30 H and GPI-1680 neck finishes
- For disposable and reusable glass bottles (glass and plastic bottles)
- Holds 5 bars of pressure – hence suitable for Prosecco.
- Different liner options for up to 50% alcohol, to suit your specific needs
- PVC-free liner provides optimum sealing performance and is recyclable

Sustainability / Recycling

- Aluminum closures permit improved use of resources (no waste of valuable energy due to tainting)
- Aluminum closures are recyclable

Quality is the top priority

- Easy and safe to open and reseal
- Very good oxygen barriers
- No tainting
- Constant opening torques

Printing on the seal / Promotion

- Printing inside the closure is suitable for promotional campaigns
- High resolution, photorealistic and sophisticated printing in 6 colors on top and side
- Silk screen printing on the side in metallic colors
- Hot stamping foil on the top and the side

Top Quality for the Beverage Industry

All of our closures offer extremely high standards in terms of functionality, processing and consumer convenience. The expertise of closurelogic and distribution facilities, coupled with the 'made in Germany' quality seal, guarantees the highest levels of product quality all over the world. Take advantage of our know-how.
