

**LALLEMAND** INC.

Montréal, February 7<sup>th</sup>, 2008.

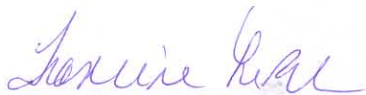

CERTIFICATION FOR THE ABSENCE OF GENETICALLY MODIFIED  
MATERIAL

Inactive and active yeast products

We hereby certify that the commercial cultures of yeast manufactured by Lallemand Inc and its subsidiaries are all propagated from yeast strains rigorously checked and analysed for their identity, purity and viability. According to our historical files and analytical data, we have no evidence that any of our commercial strains kept in our culture collection and produced on our premises has ever been genetically modified.

Material and ingredients produced from genetically modified organisms are not used in the production of our yeast cultures, nor in the process leading to the production of inactive and active yeast products of Lallemand Inc and its subsidiaries.

We hereby certify that the inactive and active yeast products manufactured by Lallemand Inc and its subsidiaries are considered non-GMO per current available legislation, Directive 2001/18/EC and Regulation 2003/1829/EC.

Francine LeBlanc  
Quality Assurance Manager
