

One Toaster still “toasting strong” after 12 years and 5 million buns!

Here’s why I bought a Marshall Autotoast™ Conveyorized Toaster...

- *Product quality is paramount to our 65 year heritage*
- *With our high volume, we must have a reliable toaster*
- *Our staff is busy running the restaurant and easy cleaning allows our employees to focus on our guests*

Sammy Maw

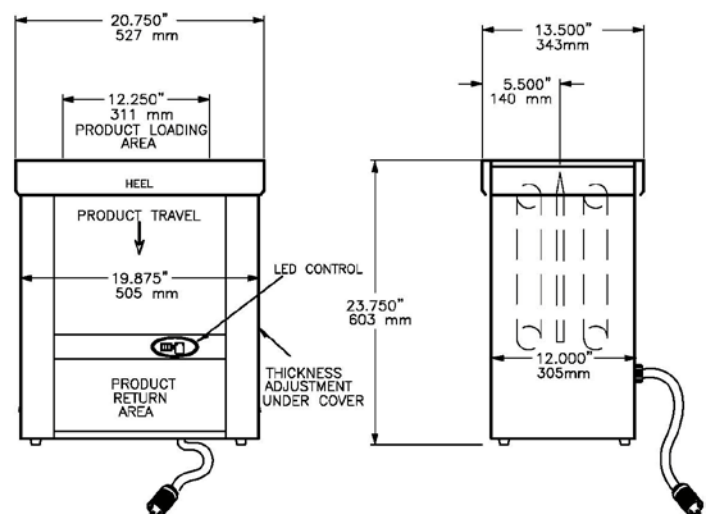

*Sammy Maw – Owner of the world famous
Beacon Drive-In Restaurant, Spartanburg, SC*

For over 12 years Marshall’s HST13 conveyorized toaster has toasted over 5 million buns at The Beacon Drive-In Restaurant... and is still going strong! Marshall’s rugged construction withstands the toughest demands while continuously performing.

Marshall’s high performance belts, which traditionally last over 2 years, are still functioning after **4 years** because The Beacon follows Marshall’s preventative maintenance programs.

Marshall may cost a little bit more, but you can count on quality to “keep on keeping on,” and outperform any conveyorized toaster on the market!

HST13 Autotoast™ Conveyorized Toaster
